

Job Description

Job Title: Welder
Department: Welding
Reporting to: Operations Manager

MSCM Ltd design, develop and manufacture sub-sea components for the Oil and Gas Industry Worldwide. Established in 2000 we employ 100 people and are an innovative market leader. Due to growth we are looking for enthusiastic, pro-active and experienced Welders to join our reputable business with a strong set of core values in a friendly supportive environment. We have a strong focus on developing our people with the potential to further your career.

Responsibilities:

- Day-to-day contribution to the welding team.
- Working as part of the production team the ideal candidate for this position will be fully conversant with the TIG welding process and familiar with ASME IX using manual and automatic welding equipment.
- You will have a proven track record in butt welding with a variety of dissimilar metals (stainless steel to duplex materials) in order to manufacture key components for the oil and gas industry.
- Ability to read and understand Engineering drawings in order to take the appropriate action.
- The ability to read and interpret technical specifications and engineering drawings.
- Good organisation skills with meticulous eye for detail most important.
- Experience in the Oil and Gas Industry would be an advantage but not essential.

Experience & Knowledge:

- Excellent attention to detail.
- The ability to work accurately under tight deadlines.
- Ability to work unsupervised – self-motivated.
- Team player & contributor.
- Forward thinking/ problem solver
- Ability to adopt change and a flexible working approach.
- Open-minded and willing to constructively challenge things.
- Promote and maintain a safe working environment, report any accidents, near misses or safety concerns.
- Ability to manage risk daily.

Desirable:

- Oil and Gas Industry experience.
- Experience of working in an engineering/manufacturing environment.
- Understanding of engineering design principles and practises; and the role of testing in product validation.

The Person:

To be successful in this role you will be a hard-working, adaptable team player with a strong work ethic and desire for success. If this sounds like the ideal opportunity, please do not hesitate to apply.
